January, 2022 Data

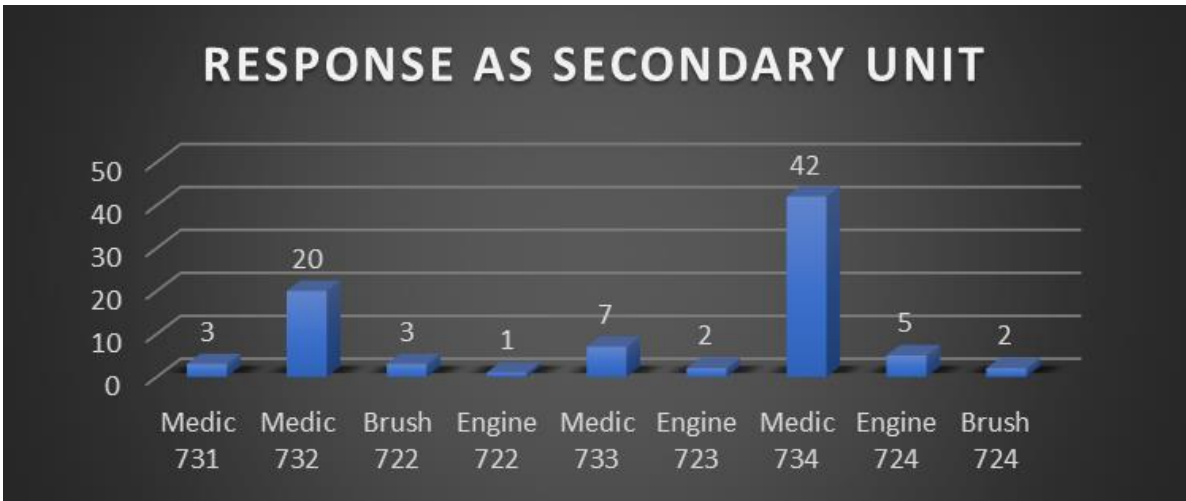

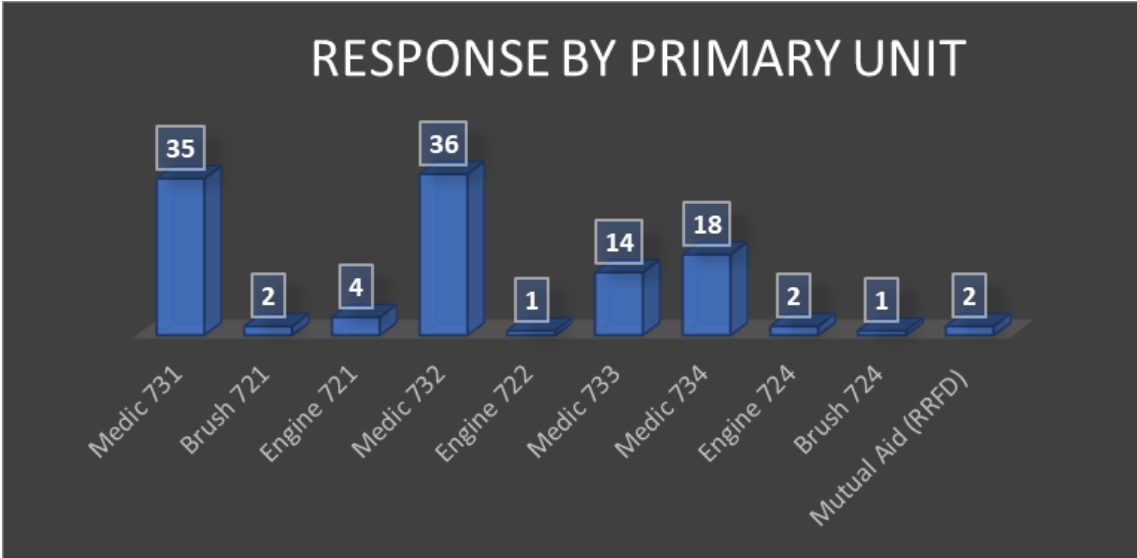

The above chart reflects unique incidents by station first due area, not total number of unit responses. For example, for a motor vehicle accident (MVA) that occurs in Station #1's primary response area, that is tracked as one unique incident with potentially more than one TFD unit responding to the call.

Station 1 – Average 53 unique incidents per month

Station 2 – Average 38 unique incidents per month

Station 3 – Average 12 unique incidents per month

Station 4 – Average 23 unique incidents per month
