

Board Action Request

SUBJECT: Clorox Total 360 Sprayer CLX1100

DATE: August 20, 2020

FROM: Genaro Rivera, Deputy Chief

Background:

Tubac Fire is in the process of acquiring two (2) disinfecting machine to use for our fire stations and equipment to disinfect/decontaminate against Covid-19. The equipment we selected to purchase is an electrostatic disinfecting type of machine to do the best as it designed to get around a majority of obstacles and equipment. Tubac currently does not have any type of disinfecting machine, this would help us reduce the potential of spreading a virus. This equipment will be used to sanitize our ambulances, public meetings spaces within TFD facilities, and routine application in all TFD workspaces. This expense is eligible for COVID reimbursement through FEMA, which we will apply for upon procurement.

Staff researched units to meet our needs and recommended a unit made by Clorox and available through Waxie Sanitary Supply.

Fiscal Impact:

The portion of this equipment will be funded by a SAEMS Grant award in the amount of \$3,000.00 and the remainder of \$4,990.00 paid by Tubac Fire District. The District will have an additional cost of \$568.00, for Concentrate cleaner.

Alternate Option:

Provide staff with additional direction

Legal Review: N/A

Staff Recommendation:

Approve awarding the purchase of the purchase of 2 unit as recommended.

Proposed Motion:

Move to approve the purchase of Clorox Total 360 Sprayer from Waxie Sanitary Supply in the amount of \$7,990.00.
