

Board Action Request

SUBJECT: Treadmill for Station #1

DATE: 10/22/2020

FROM: Chief Horvath

Background: Staff is requesting approval for the purchase of a treadmill at Station #1. The current physical fitness space at Station #1 consists of a bar rack and an exercise bike, both located in one of the apparatus bays. Limited improvements, such as rubber floor mats and cubicle walls, have been added to the area to provide for cleanliness and privacy. Additional workout equipment is needed for cardiovascular, flexibility, and weight training.

The treadmill included in this request is the TRUE TC900 with Envision 9 touchscreen monitor. This model meets the basic parameters of a 15% incline (requirement of annual fitness testing) and the ability to accommodate at least 350 pounds. Keeping in mind that firefighters may train on the treadmill wearing full turnout gear and SCBA, the weight capacity is an important criteria to include in the specifications. A commercial-grade treadmill is preferred due to the stability of the equipment and the warranty. The warranty includes 5 years on the motor, 3 years for parts and labor. The frame has a lifetime warranty.

The vendor for this purchase is Commercial Fitness Superstore. Commercial Fitness Superstore maintains a purchasing contract with the City of Mesa for fitness equipment. The TRUE TC900 treadmill is included in the City of Mesa contract.

Fiscal Impact: Total cost for this item is \$5,886.29 and this purchase was anticipated in the capital improvements plan.

Alternate Option: Board recommendation

Legal Review: N/A

Staff Recommendation: Approve the purchase of the treadmill for Station #1

Proposed Motion: Move to authorize the purchase of the TRUE TC900 treadmill from the Commercial Fitness Superstore in the amount of \$5,886.29.
