Dear Board of Directors - Tubac Fire District

Please accept this letter with attached biography as my letter of interest in being chosen to fill the vacancy on the current Board of Directors.

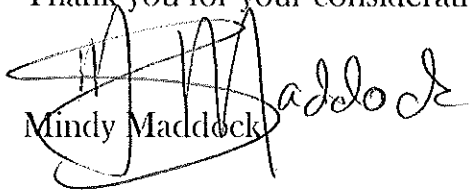

This year, I made the decision to run for election to a position on this Board and although I did not win, I remain very interested in serving on it

I am committed to working with the current members of the Board, the chief and the members of the fire department to identify, address and solve the issues which face our district. We also need to look at developing long term goals aimed at the financial stability of our District and improving the quality of the lives of our fire fighters.

My background in law, real estate, teaching and service to my community gives me the depth of knowledge and experience needed to identify, address and solve issues. It also have given me the tools to work with folks towards common goals - in this case making our fire district one in which individuals want to work and build their careers.

My biography is attached to this letter of interest.

Thank you for your consideration.

Mindy Maddock

MINDY MADDOCK
